RE: Letter of Recommendation

To Whom it may concern,

I would like to recommend Keith Wilfley of Aesthetic Designs Construction. Keith has recently completed the rough framing of my personal house just east of Saskatoon, SK. I find his workmanship and ethics to be of the highest quality and would not hesitate to recommend him for any residential project. Keith is very honest and communicates well to quickly resolve any potential problems. He completed my project with no extras and was very fair when dealing with gray areas.

I also had the opportunity to work with Keith on a large multi-family renovation project in Vernon BC. He worked and communicated well with employees, owners, management and staff and was an incredible asset to the construction team. I would be happy to discuss Keith's professionalism and work quality with any future potential client.

Regards,

A handwritten signature in black ink, appearing to read 'Rob Lair', with a stylized flourish at the end.
